RECEPTION REPORT VERIFICATION

Thank you for your reception report of 1-7-82  
We have compared it with our Programme Log and can, in fact  
verify that it was our transmission you were listening to:-

On 1-7-82 From 1824 To 1854 GMT  
On 3380 KHz

As you no doubt realise our transmissions, with the  
exception of the International Service, are intended for  
reception only within MalaWi. But, we are interested in  
reports from further afield.

We broadcast daily from 0257 - 22.10 GMT on Medium  
Frequency, High Frequency and VHF (FM) bands. Our up-to-date  
"seasonal High Frequency transmission schedule" is as attached.

We thank you for your interest in us.
